DETAILED ACTION

1. This Office Action is in response to the After Final Amendment filed on 2/25/05. Claims 3-20 are cancelled. New claims 21-22 have been added. Claims 1-2 and 21-22 are currently pending in the application.

Allowable Subject Matter

2. Claims 1-2 and 21-22 are allowed.

3. The following is an examiner's statement of reasons for allowance: Claims 1 and 21 are allowable because the prior art of record fails to disclose the claimed first command generating means for generating a first command for making an inquiry to the second digital signal processing apparatus...first command receiving means...first command examining means for examining, in response to the first command, the capability of rate control functions of the second digital signal processing apparatus...first response sending means for sending a result of the examination of the first command examining means to the first digital signal processing apparatus in response to the first command. The closest prior art of record, Rosefield et al., discloses a digital signal processing apparatus that has its rate controlled by another digital signal processing apparatus; however, Rosefield et al., fails to disclose or render obvious generating an inquiry as to the rate control functions of a digital signal processing apparatus as in the above underlined claim limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
